Universal Revolutionized Sporting Firearms

THE FABULOUS DuPont TEFLON-S* PROTECTED

.30 Cal. Carbine

The soft dull finish of Teflon-S avoids reflections that spook game and bother your aim. This same magic Teflon-S makes parts self-lubricating so that they operate smoothly without oil or grease. Of course Teflon-S is waterproof and scuff resistant . . . just wipe off the water, never worry about rust.

*Reg. U.S. Pat. Off. for Du Pont's non-stick finishes

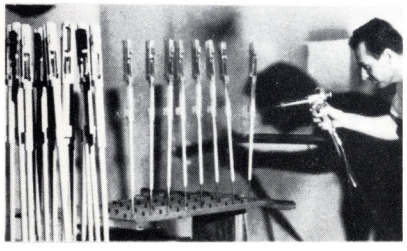
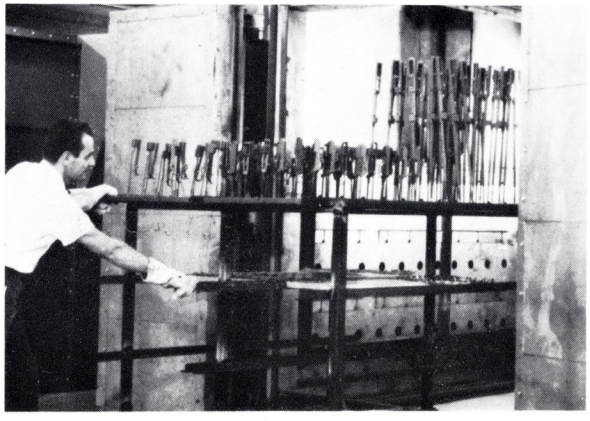
1024 .30 Cal. Raven Black* **$149.85**

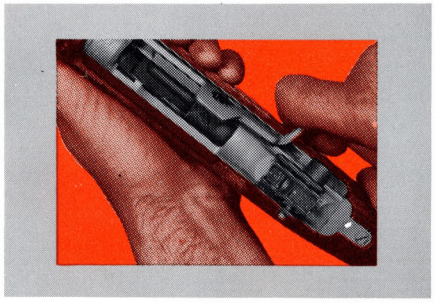
All models drilled, tapped and inletted for scopes. (Base and screws included.)

How Teflon-S is Applied

Teflon-S is sprayed on metal parts under carefully controlled conditions. After spraying, the parts sprayed with Teflon-S are carefully heat treated and baked at rigidly controlled time and temperatures in their industrial ovens.







The receiver and slide are coated with Teflon-S so that the bolt operates smoothly without oil or grease.

5 shot clip is Teflon-S coated so that it slides into place easily without binding or sticking.

Why **Universal** is "First" with the Best!

The manufacturing facilities at Universal are a combination of modern American equipment plus Old World craftsmanship. Here the finest steels are forged and machined into carefully mated parts. Precision inletted stocks are turned from carefully selected American walnut that has been slowly kiln dried and cured. Add to this the most advanced methods of finishing, plus 100% inspection and test firing of every gun and you can be sure your Universal sport guns offer you more shooting pleasure, pride of ownership.

Engineering, Research and Development at Universal, never stands still. The number of "firsts" offered to the gun market is legendary. Today, Universal Firearms Corp. offers many exclusive gun features. Tomorrow will come more new developments. Watch Universal for advancement in sporting firearms and riflescope design. That's why Universal is first with the best.

"If it's Universal, it's the Best!"
